MEMORANDUM for the Executive Director:

STAT
STAT

1. There are no objections from a policy standpoint to publication of this book by [redacted] so long as there be no identification of [redacted] as a CIA official.

2. This is a good book and, in my opinion, a real contribution to helping Americans understand the Latin American mind. It is sympathetic to the Latin Americans; they would not take offense at it.

STAT

3. The account of the rise to power of Castro would not please the oversimplified view of the rightists, i. e., that he was a Communist all along and CIA and State just muffed the ball. Nor would it please Schlesinger and similar gentlemen of the left who view the revolution more in terms of a peasant-based economic upheaval. On the other hand, [redacted] treatment is moderate, and, to the extent that it is controversial, it is the very stuff of intellectual debate. It adds light rather than fuel to that debate.
